

**SONORAN HEIGHTS II  
HOMEOWNERS ASSOCIATION**

**APPROVED PAINT PALETTE  
Established November 2009**

The five (5) paint colors applied during initial construction of the development were obtained by PULTE from Universal Paint Corporation, which is no longer in business. We have investigated the availability of these paint colors and where they can be obtained. This information is outlined below.

In addition the Board of Directors has approved three (3) new colors to add to the pre-approved palette. Use of any of the original five (5) colors or three (3) new colors is permitted without prior written approval from the Association. Any color used that is not one of these eight (8) colors must be approved by the Association, in writing, prior to application. This includes, but is not limited to, any color proposed for use on popouts, trim, fascia, and/or the main body of the home.

If you are in need of an Architectural submittal form, please contact the management company and request that one be sent to you. Completed forms can be returned to the management company at your convenience.
